Marks:[5.00]

Q.No.13: Read the following text carefully and answer question number 13(a) and 13(b) given below:

Green investment and sustainability are priorities in public policy. India has emerged as a global leader at the front of the climate change. India has pledged to seek solutions for the future.

Government schemes and policies such as Swachh Bharat Mission, Pradhan Mantri Awas Yojana, Smart Cities, Deen Dayal Upadhyay Gram Jyoti Yojana

among other, all contribute towards achieving sustainable development goals. The government has contributed to maintain economic growth by introducing and implementing various policies and measures relating to sustainable development, climate change, energy efficiency and air pollution.

Pradhan Mantri Uijwala Yojana Scheme, has actively contributed to cleaner air. It has resulted in drastic reduction of respiratory diseases and ultimately death as per recent medical report.

The Jal Jeevan Mission was launched with the objective of achieving water security. We have seen 68 per cent decline in the size of population of various animal species and amphibian over the last 60 years. The issue of green house gases and rising temperature of the earth are a global concern. India is one of those countries that will be affected by the over 2 degree celsius rise in global temperature.

'India has already taken a lot of steps in the area of innovation and development of different production methodologies which are environmentally friendly in the long run.'

Source: The Economic Times; Oct. 27, 2021

- (a) State and discuss any two steps involved in attaining sustainable development in India.
- (b) From the given text, state any two factors which challenged the carrying capacity of the environment.

 Marks:[5.00]
